- Supplied with a rotating handle for a padlock
- Special locking requirements can also be available on request
- Optional coloured doors

Environmentally friendly

Prices Start From **£1,350.00**

Store, re-charge and transport laptop computers with NoteCart. As shown this model has sliding trays and built-in mains power timer.

The timer reduces power consumption and load on the computers batteries.

- Intelligent charging
- Automatic fan
- Separate storage shelves for power connections
- Secure multi point locking
